Dear Governor Palin and Cabinet:

The following State of Alaska employees with the Supervisory Unit of the Alaska Public Employees Association (APEA/AFT) are no longer able to accept a contract that falls behind the cost of living. For the last 20 years, the state has not been able to keep up with inflation or the cost of living due to the low price of oil. Today's oil prices allow the state to treat their employees fairly and pay them a fair wage for an honest day's work. Alaska's workforce is entitled to fair compensation. Governor, please take a stand and direct your representatives to bring an offer to the table that reflects the value you place in your supervisory and management workforce. Thank You.
